## DOSING UNIT STOCK TANK MIXING

- Use reverse osmosis (RO) or distilled water for all stock tank concentrate mixes
- Gentle agitation is recommended to maintain stock tank mixtures (mixing approx. 5 minutes prior to dosing events is sufficient. Airstones should be avoided)
- Stock tanks perform best mixed weekly
- Never mix multiple products together in concentrated form

### Sensi Professional Grow and Bloom

- Mix 1lb of soluble powder per gallon of water (or 1.2kg per 10L)
- This is a 2-part fertilizer. We recommend using both part A and part B together for best results

| SET DOSER TO |        | EC  |
|--------------|--------|-----|
| PART A       | PART B |     |
| 0.16%        | 0.16%  | 0.5 |
| 0.38%        | 0.38%  | 1.0 |
| 0.59%        | 0.59%  | 1.5 |
| 0.8%         | 0.8%   | 2.0 |
| 1%           | 1%     | 2.5 |
| 1.22%        | 1.22%  | 3.0 |
| 1.43%        | 1.43%  | 3.5 |
| 1.64%        | 1.64%  | 4.0 |

### Bud Blood®

- Mix 190g per gallon of water (500g per 10L)

| BUD BLOOD® | EC   |
|------------|------|
| 1%         | 0.33 |

### Big Bud® Liquid

- Big Bud® liquid can be dosed at the concentration in the container

| BIG BUD® LIQUID | EC  |
|-----------------|-----|
| 0.2%            | 0.5 |

### Voodoo Juice Plus

- Dissolve 1 tablet per 1 gallon of water

| VOODOO JUICE PLUS | EC  |
|-------------------|-----|
| 1%                | N/A |
